

**ImageSource** is a premier Document, Image, Records and Enterprise Content Management ("ECM") systems value added integrator. We have extensive experience working with the software, infrastructure, technologies, methods, and project requirements that are necessary to implement successful ECM solutions that meet or exceed government client expectations.

ImageSource was founded in 1994, and the ECM industry has been our only business. Approved for Categories I, II, and III project sizes under the MSA Agreement, we implement ECM systems ranging from workgroup size to the largest scale projects.

Some of our successes with government clients, and a description of the methods and some of the products we use are available for review by our prospective clients by accessing our website at [www.imagesourceinc.com/applications/index.html](http://www.imagesourceinc.com/applications/index.html).

ImageSource provides primary and ancillary software solutions that we configure into solutions to address specific client requirements. These can be in workgroup, departmental or larger enterprise environments. Fully integrated web centric and network based solutions can include capabilities for:

- Document Management
- Document Imaging
- Workflow & Business Process Management
- Web Content Management
- Collaboration Management
- Document and Data capture from Paper, Digital and Web forms
- OCR/ICR/OMR & bar code reading technologies
- Document Records Management —Digital and Physical records
- Reports Management/COLD
- Integration and Software Development Tools
- Legacy system and database integration for data sharing
- Image enablement of third party applications/ERP/CRM
- Application Development and Programming Services for Custom Requirements
- eForms Design & Library
- Digital signatures and data encryption
- Data Migration from legacy imaging and records management processes.

## Project Resources and Methods

Without exception, ImageSource uses the highly effective **IPM** process (ImageSource Project Methodology) to manage projects. This fully developed formal and proven process consistently provides solutions that surpass the vision and objectives of our clients. We work in collaboration with our client to ensure that projects are executed efficiently, address all goals, and are delivered to our client on time and on budget.

Our high level focus is to develop strategic client partnerships that are very successful in consistently providing high client value up front and a strong continuing value for the long term.

Why do clients do business with ImageSource? The following factors are most frequently mentioned by our client references as being of major consideration:

- **Large Successful Reference Base** — over 350 small to large systems
- **Proven ImageSource Methodology** for Projects and Applications
- **Depth and Breadth of Experience** — over 60 full time employees
- **PMI Certified Project Managers & Factory Certified technical staff**
- **Scalable Solutions** — highly scalable in size and functionality
- **Flexible and Configurable Solutions** — open & optimal compatibility
- **Reliable Solutions** — experienced providers and mature software

ImageSource works hand-in-hand with our clients to first fully define and then create the specific solution that achieves well founded goals. As a minimum, the solution includes Analysis and Design, a formal Project Plan, Project Management, Systems Development, Installation, Testing, Training, system roll-out, and ongoing post implementation support. The following are some of the services we provide in conjunction with a client project:

- Business Process Analysis & Consultation
- Project Management
- Project Plan Documentation
- Project Detail Design Documentation
- Detailed Statements of Work
- Documented Testing and Acceptance Criteria
- Installation & configuration of application platforms
- Application Development
- Application Customization
- Integration with other systems
- Comprehensive Application and Acceptance Testing
- Complete Custom Application Based Training
- Roll-out Support of the Production System
- Ongoing Operations Support
- Ongoing Growth and Technology Planning

## Products Used for System Implementations

ImageSource provides a broad spectrum of industry leading solution software. In the MSA Agreement we are fully approved to provide product/solution Categories A through H, plus K.

In providing systems to manage and process large volumes of paper images and digital information files, ImageSource works with comprehensive, robust and proven non-proprietary software platforms. We deliver ECM solutions technology based on industry-standard architecture and formats, and implement solutions that can provide all the traditional components of Workgroup to Enterprise Content Management. Our solutions include a logical growth path without jeopardizing the client's investment in applications and software.

**STELLENT™** For the primary solution, ImageSource offers the comprehensive suite of STELLENT Content Management solutions. This modular suite of solutions addresses all aspects of Content Management, and also assists with broad government compliance mandates such as Sarbanes-Oxley, HIPAA, and the Patriot Act. STELLENT Records Manager is DoD 5015.2 Certified, and fully compliant with CFR Title 21, Part 11. Stellent acquired the suite of Optika Acorde products in the past year.

When integrated with **Kofax Ascent Capture** document and data capture software, these software platforms provide optimal document integrity, multi-level security, complete auditing, and have high extensibility.

More information about these products and software companies can be found at:

- [www.stellent.com](http://www.stellent.com)
- [www.kofax.com](http://www.kofax.com)

All the provided functions and capabilities of ECM fully support Microsoft "centric" environments, and some also support other operating platforms. In this MSA Agreement, ImageSource also provides software from Verity, Adobe, Legato, Captovation, Captaris, Spicer, and Valyd to enhance solutions as determined by our client. ImageSource is recognized as an industry expert:

- **STELLENT North America Partner of the Year 2000 through 2003**
- **Kofax Ascent Capture Reseller of the Year 2000 through 2003**

A single Microsoft SQL Server license is required to use Stellent Core IDM licenses. A Microsoft SQL Server or Oracle database license supporting the DB Server and all workstations is required and if the DB is on the same server, one license will suffice. The SQL Server or Oracle license fees are not included with the pricing listed above.

**STELLENT™**

STELLENT IDM - Pre-Set ERP Integration Adaptive Software		
Stellent Application Link Service - EBP-LOB-001	<b>PREREQUISITE FOR ALL ITEMS BELOW</b> - The Application Link Service tool links the ERP, line-of-business, or other specified applications to Stellent IDM/BPM/Web Services. This is a prerequisite for the items below.	\$15,000
Stellent Application Link HLLAPI - EBP-ERP-005	Host Based HLLAPI Application Integration	\$25,000
Acorde Adapter for JD Edwards OneWorld	These Stellent Adapters provide seamless document storage and retrieval, as well as single step data entry, directly from the specified JD Edwards "OneWorld" series applications.	\$22,500
Acorde Adapter for JD Edwards WorldVision	These Stellent Adapters provide seamless document storage and retrieval, as well as single step data entry, directly from the specified JD Edwards "WorldVision" series applications.	\$22,500
Acorde Adapter for JD Edwards WorldSoftware	These Stellent Adapters provide seamless document storage and retrieval, as well as single step data entry, directly from the specified JD Edwards "WorldSoftware" series applications.	\$22,500
Acorde Adapter for JD Edwards OneWorld AVE Extension	JD Edwards AVE Extension (requires Application Link Service and the JDE OneWorld & ERP 8.0 Adapter)	\$27,500
Acorde Adapter for Oracle 11i Financials - EBP-ERP-004	These Stellent Adapters provide seamless document storage and retrieval, as well as single step data entry, directly from the specified Oracle 11i Applications	\$22,500
Acorde Adapter for Microsoft Great Plains - EBP-ERP-006	These Stellent Adapters provide seamless document storage and retrieval, as well as single step data entry, directly from the specified Great Plains Applications	\$12,500
Acorde Adapter for PeopleSoft - EBP-ERP-009	These Stellent Adapters provide seamless document storage and retrieval, as well as single step data entry, directly from the specified PeopleSoft Applications	\$22,500

STELLENT IDM - Full Text & OCR Modules		A SQL Server license is required for every Full Text Indexing Server and Full Text Concurrent License workstation. The SQL Server license fees are <u>not included</u> with the pricing listed above.	
Stellent Full-Text Module & TIF OCR with up to 25k Pages per month OCR - MOD 025	<p><b>PPM</b> = Pages Per Month and is calculated based on a rolling 30 day count. Example: If you had a 25k license and used 1k per day for 25 days your license you would run out on the 25th day. On the 31st day the first day's licenses would be released and you would have 1k available. On the 32nd day another 1k would be released and available. This enables Full-Text indexing and searching on an Acorde 3.0 or higher system and includes 1 OCR License. This module will allow you to run one or many Acorde Full-Text Services.</p> <p><b>OCR</b> = Optical Character Recognition. OCR is related only to machine printed texts. Hand written text capabilities (ICR) are not included at this time. The 1 OCR license will also allow you to configure one Acorde OCR Service and OCR up to either 25,000 PPM or 500,000 PPM dependant upon which level you purchased. You must have a separate OCR license for every Acorde OCR Service you wish to operate</p> <p><b>Additional Servers</b> = Dependant upon the overall load on your Acorde System, OCR document volume, and OCR document type you may need to add an additional Acorde OCR Server. This license allows you to enable an additional OCR Service on your Acorde system and OCR up to either 25,000 PPM or 500,000 PPM on that service dependant upon which level you purchased. You may have up to 36 Acorde OCR Services running on an Acorde system. You cannot run multiple licenses on the same server at the same time.</p> <p><b>Overflow</b> = This license is intended to be used as an overflow license in case your PPM license runs out during any 30-day period. This license can also be used for backfilling purposes. This license is only available in a hardware dongle license. It can either be used on an existing Acorde OCR Service by removing the PPM dongle and replacing it with the PPC dongle. If your Acorde OCR Service were using the Software License you would need to install the overflow dongle on a separate Acorde OCR Server. You cannot run multiple licenses on the same server at the same time.</p>		\$4,500
Stellent Full-Text Module & TIF OCR with up to 500k Pages per month OCR - MOD 500			\$9,500
Stellent Additional 25k PPM OCR Service - OCR 025			\$2,550
Stellent Additional 25k PPM OCR Service - OCR 500			\$7,550
Stellent Overflow 300 PPC OCR Service - OVF 300			\$1,550
Stellent Overflow 1M PPC OCR Service - OVF 1000			\$2,550
Stellent Full-Text Concurrent License - AFT CONCURRENT		One is required for each Acorde Context Concurrent License you want to Full-Text enable. Requires an Acorde Concurrent Connection.	

## STELLENT IDM - "Desktop/Workgroup" Configurations

**STELLENT™**

	3 CALS AD01-003	5 CALS AD01-005	10 CALS AD01-010	15 CALS AD01-015	20 CALS AD01-020	
Stellent "Desktop/Workgroup" System - Core IDM Document & Image Management, (1) Stellent Capture Scan license, (1) eStellent Capture Index license, no Web Server or Oracle support	\$ 12,990	\$ 17,990	\$ 22,990	\$ 27,990	\$ 32,990	
Stellent "Desktop/Workgroup" System - Core IDM Document & Image Management, without Stellent Capture software, no Web Server or Oracle support	\$ 10,990	\$ 14,990	\$ 19,990	\$ 23,990	\$ 28,990	
Stellent "Desktop/Workgroup" System - Enterprise Report Management (ERM) upgrade - AD-02	Enables all Stellent Desktop Concurrent Connections to utilize Stellent ERM. Connections beyond 20 must pay the ERM license fee under the standard Stellent pricing.			\$ 4,000		<b>Not for use with the above Standard Stellent Licenses.</b> <b>Stellent Desktop program licenses do not support the use of Oracle as a database engine. Functionality for the use of Web browser based clients is not included but may be added by acquiring one WebAccess Server license. This version does not support Stellent Process workflow, but licences may be upgraded for that capability. All licenses may be upgraded to standard Stellent enterprise License configurations. Maximum size before having to upgrade to standard Stellent licences is 20 CALS.</b>
Stellent "Desktop/Workgroup" System - Workflow upgrade - AD-03	Enables all Stellent Desktop Concurrent connections to utilize Stellent Process. Connections beyond 20 must pay the Process license fee under the standard Stellent pricing. Note: additional server hardware may be required when deploying			\$ 8,995		
Stellent "Desktop/Workgroup" System - Fixed Records Management upgrade - AD-04	Enables all Stellent Desktop Concurrent connections to utilize Stellent Records Management. Connections beyond 20 must pay the Process license fee under the standard Stellent pricing. Note: additional server hardware may be required			\$ 11,995		
Stellent Stellent "Desktop/Workgroup" System - WebAccess Server required for any type of Web Browser based or Internet client access - ADWA001	Required for Web Browser Client interface only when using Stellent Desktop Program and if desired			\$ 4,995		
Stellent "Desktop/Workgroup" System - Stellent Desktop WebView 10 Pack - ADWV010	Allows view-only access from a web client and their own concurrent licenses. WebAccess Server must be licensed in conjunction with this and allows the use of the standard Stellent Web Client (no charge client).			\$ 7,995		
Stellent "Desktop/Workgroup" System - Stellent Desktop WebView 25 Pack - ADWV025	(These packs are not available to non-Stellent Desktop/Workgroup customers.)			\$ 18,995		
A Microsoft SQL Server license is required for the Stellent Context Concurrent License. Additionally a Microsoft SQL Server database license supporting the DB Server and all workstations is required. The SQL Server license fees are not included with the pricing listed below.						

## ProLYNX Utilities

**Required Software Assurance**

Software Assurance is required and is calculated at **20%** of the prices on this list for **all ProLYNX Software**.

ImageSource ProLYNX Application Integration Kit (AIK)	The ProLYNX tool links the ERP, line-of-business, or other specified applications to Acorde Context and Process and includes the HLLAPI integration component.	\$ 15,000
ImageSource ProLYNX Stellent/Kofax Release Module - Single Use	This ProLYNX tool provides resources to enable the configuration of the interface between Kofax Ascent Capture 5/6 and Stellent Acorde to enable the release of data captured from within Kofax to the Stellent platform	\$ 3,500
ImageSource ProLYNX Stellent/Kofax Release Module - Enterprise	This ProLYNX tool provides resources to enable the configuration of the interface between Kofax Ascent Capture 5/6 and Stellent Acorde to enable the release of data captured from within Kofax to the Stellent platform. Enterprise license can be used in multiple server locations.	\$ 15,000
ImageSource ProLYNX Import Agent #IA-V5 - Single Use	leverages existing Kofax Ascent Capture System, enabling the capture, control and input of both image and electronic documents into an enterprise document management system. Provides centralized processing of Faxes, Electronic Documents, E-Mails and Scanned images. Single application development license.	\$ 6,000
ImageSource ProLYNX Import Agent - Enterprise	Same as above ProLYNX Import Agent #IA-V5 - Enterprise & multiple application development license	\$ 19,000
ImageSource ProLYNX Export Agent #EA-V4.x - Single Use	Provides tools that allow queries from a web page to be executed by Stellent IDM with query search results and selected images/documents being made available to customer's web site development team. Single application development license.	\$ 3,500
ImageSource ProLYNX Export Agent - Enterprise	Same as above ProLYNX Export Agent #EA-V4.x - Enterprise & multiple application development license	\$ 15,000

**PLEASE NOTE**

Additional Items are available from Stellent and ImageSource as required and this price schedule references and includes these additional items by incorporating how they are listed in the most current published Stellent or ImageSource ProLYNX Price Schedule

## STELLENT UCM

Aperture Cards @ 200 dpi	1.0700	per image			

**IMPORTANT NOTE:** The pricing or rate structure for all conversion projects is subject to review to determine that the parameters and source document factors are in "**Standard Compliance**" (compliance with an "average" type of project) and as stipulated in the description. Many conversion projects have different factors that may significantly effect the time and work it takes to do a good job for our customers. Projects that are outside the scope of "**Standard Compliance**" are subject to review, and adjustments to the rates and prices above may be required. Adjustments may include an increase or decrease in the pricing accordingly. A specific quotation, predicated on a percentage of the base rate factors noted above, will be immediately provided in these cases.
